

BRP LLC Mineral Rights Conveyance Request Form

In the vast majority of instances where severed mineral ownership occurs, we prefer to maintain ownership of these severed minerals. However, in cases where this may create some form of perceived conflict with the surface estate, we will occasionally consider a sale of all or a portion of our mineral interest with the understanding that this is an accommodation, not an obligation on our part as mineral owner. We reserve the right to accept or reject any proposal submitted.

As a minimum, BRP LLC will require the greater of \$1,500 or \$300/acre plus an 8% retained royalty interest in any minerals we may agree to sell (and it could be more than \$300/acre if a geological review indicates commercial mineral potential). Any and all conveyances will only be accomplished by a quitclaim deed and certain minerals may be excluded.

By submitting a request, you are acknowledging concurrence with this policy. If you are not in agreement, please do not submit your request.

I agree: _____ (signature) _____ (date)
